

Copic markers are highly blendable, low odour, alcohol-based ink markers and generally regarded as the best in the world. Copic markers apply smoothly and mix on the surface of the paper to deliver the beautiful blends these markers are renowned for. Highly durable, all the marker ranges (which include Copic Ciao, Copic Sketch, Copic Classic and Copic Wide) are refillable and feature replaceable nibs. You only need to buy a marker once!

Picking Blending Colours

To determine if a colour will blend evenly with the next shade:

Match the letters to keep the Colour Family the same.

Match the middle number to keep the blending Grouple the same.

The last number indicates how light or dark the Specific Value is.

For highlights, pick a last number with a value of 0, 1 2, or 3. For mid tones, choose numbers 4, 5 or 6. For Shadows, choose colours with a last number of 7,8 or 9. For best results, try to keep a 2or 3 digit difference between your colours.

Copic markers are highly blendable, low odour, alcohol-based ink markers and generally regarded as the best in the world. Copic markers apply smoothly and mix on the surface of the paper to deliver the beautiful blends these markers are renowned for. Highly durable, all the marker ranges (which include Copic Ciao, Copic Sketch, Copic Classic and Copic Wide) are refillable and feature replaceable nibs. You only need to buy a marker once!

If closed properly, Copic markers will not dry out. Copic Various Ink Refills are available in 358 colours and can fill a marker several times. The ideal colouring marker for professionals and hobbyists!

Picking Blending Colours

To determine if a colour will blend evenly with the next shade:

Match the letters to keep the Colour Family the same.

Match the middle number to keep the blending Grouple the same.

The last number indicates how light or dark the Specific Value is.

For highlights, pick a last number with a value of 0, 1 2, or 3. For mid tones, choose numbers 4, 5 or 6. For Shadows, choose colours with a last number of 7,8 or 9. For best results, try to keep a 2or 3 digit difference between your colours.
