Picking Blending Colours

To determine if a colour will blend evenly with the next shade:

Match the letters to keep the Colour Family the same.

Match the middle number to keep the blending Grouple the same.

The last number indicates how light or dark the Specific Value is.

For highlights, pick a last number with a value of 0, 1 2, or 3. For mid tones, choose numbers 4, 5 or 6. For Shadows, choose colours with a last number of 7,8 or 9. For best results, try to keep a 2or 3 digit difference between your colours.
