

Triton's acrylic paint markers are a German innovation, offering 12 brilliant and lightfast colours. The markers have exchangeable 1-4mm tips that keep their shape and clean easily. Paint on just about anything — canvas, cardboard, stone, paper or metal and get the same even flow of paint with a matt finish. Your work is also weather-proof if you do it on an absorbent surface. Clever and functional, use for both art and hobby crafts.

- The perfect addition to an artist's brush and spatula
- For detailed and graphic design elements
- Range of 12 colours currently available
- Suitable for a multitude of paintable surfaces such as e.g. canvas, carton, paper, stone, metal
- Shape-keeping tips ensure a precise line
