

DANIEL SMITH 

## WATERCOLOUR SETS

full range:

### Primary Mixing Set of 3 (15ml)

Brush on bright primary colours that multitask as foundations for other hues. An important set for students and new watercolourists, the Primary Color Set lets you customize basic colours. The set also collaborates with the Secondary Color Set to complete an entire colour wheel, multiplying possible shade combinations.

This set contains 3 x 15ml Tubes of the following colours:

- Perylene Red
- Hansa Yellow Medium
- French Ultramarine

### Secondary Mixing Set of 3 (15ml)

A companion to the Primary 3-Color Set, and a beautiful selection on its own, the Secondary Set is remarkably versatile. Added to primary colours, you'll mix shades with greater tone consistency. Jewel hues complement one another, and also function as the other half of the colour wheel.

This set contains 3 x 15ml Tubes of the following colours:

- Quinacridone Burnt Orange
- Undersea Green
- Carbazole Violet

### Essentials Introductory Set of 6 (5ml)

The pigments of this set were carefully selected to give you a wide range of colours and values. When mixed, the colours you can create are endless!

- This set contains 6 x 5ml Tubes of the following colours:

- Hansa Yellow Light
- New Gamboge
- Pyrrol Scarlet
- Quinacridone Rose
- French Ultramarine
- Phthalo Blue (Green Shade)

## WATERCOLOUR SETS

full range:

### Ultimate Mixing Set of 15 Half Pans in Plastic Box + Bonus Plastic box and 15 Empty Half Pans

This amazing set was produced in collaboration with watercolour artist Jane Blundell. This set has 4 x unique DANIEL SMITH colours including the NEW Jane's Grey plus 11 x more colours for a complete 15 colour mixing set.

"Whether the aim is to paint botanicals, landscapes, urban scenes, animals, portraits – or any other subject – this set of fifteen colours will enable you to mix all the colours that you need. The fifteen colours used in this palette showcase the many characteristics of watercolour; some are transparent, some are opaque, some semi-transparent, some staining and some granulating. Some have two or even three of these characteristics. They are also largely single pigment colours, and they are carefully chosen to intermix, creating a world of colours. Importantly, they are all reliable pigments with a lightfast rating of I or II for watercolour." – Jane Blundell.

This Ultimate Mixing Set contains 15 x watercolour half pans, along with a travel case and a bonus extra travel case with 15 empty half pans.

This set contains 15 x hand poured half pans in the following colours:

- |                              |                              |
|------------------------------|------------------------------|
| - Buff Titanium              | - Phthalo Blue (Green Shade) |
| - Hansa Yellow Medium        | - Phthalo Green (Blue Shade) |
