REMBRANDT SOFT PASTELS SETS

colour chart:

Known for generations as one of the world's most popular soft pastel, Rembrandt pastels occupy a distinct and important segment of most pastel painters' process.

Made in Holland by Talens, Rembrandt soft pastels provide you with 218 highly brilliant colours. Rembrandt soft pastels are made from the purest pigments and mixed with the finest quality kaolin clay binder. No pigments containing heavy metals, such as cadmium, lead, and cobalt, are used in production which ensures that the pastels have no hard bits or sharp edges.

These pastels are harder in consistency than many soft pastels, allowing for more control and definition in your painting. Full sticks measure 70 mm x 11 mm. They are paper wrapped and are sold individually. While not as hard as carre pastels (an extra hard pastel that are less brittle and produce less dust), and not as soft as some of the finishing pastels on the market, Rembrandts are known for their medium softness, their density and consistency. Often called "the workhorse" of the pastel category, this is specifically because of this density and medium touch. Soft enough to easily release colour, but hard enough to draw a sharp line, keep an edge and build multiple layers, the versatility is nearly endless.

Rembrandt Soft Pastels Portrait Selection - Set of 30

Basic portrait set contains: 30 whole pastels:

-100.5 - 201.5 - 202.9 - 227.5 - 231.3 - 231.7 - 236.5 - 236.9 - 339.5
- 339.7 - 343.8 - 347.5 - 370.7 - 371.8 - 372.5 - 408.7 - 409.5 - 409.8

Rembrandt soft pastels contains high-quality pure pigments which result in vivid and strong colours. This is achieved through a combination of pigment, a minimal amount of binder and the purest and softest types of kaolin, also referred to as pipe clay or China clay. The combination of these ingredients results in a velvety look and a smooth application.

- Excellent colour release.
- Intense and pure colours.
- Good to highest degree of lightfastness.
- Very high colouring power due to high concentration of pigment.
- Free of pigments based on metal lead, cadmium and cobalt.
- The complete range consists of 203 colours.
